Michael Taillard : Corporate Finance For Dummies before purchasing it in order to gage whether or not it would be worth my time, and all praised Corporate Finance For Dummies:

1 of 1 people found the following review helpful. investpedia is far better than this bookBy Fouad KhawajiI was expecting this book to explain things in details but I found it giving you overall of everything where you need to google to have more details on almost every chapter. In my opinion, investpedia is far better than this book.2 of 2 people found the following review helpful. Good primer for the non-financial business ownerBy Chris S.This information will be extremely helpful for a business owner without a deep background in corporate finance. Also a great knowledge source for the individual investor.0 of 0 people found the following review helpful. Five StarsBy I-PlayerGood
