This is real world type advice and discussion and not a textbook. The book is useful for payroll specialists to learn how to navigate competing interests in the

organization as they affect payroll duties.0 of 0 people found the following review helpful. outdatedBy tralaineold info.2 of 6 people found the following review helpful. Negative STARS--DO NOT BUY THIS BOOK IN ANY FormatBy Kindle CustomerThis book contains multiple errors in payroll reporting. Ones that can get you on a first name basis with the IRS and most state agencies. What is correct in this book is "Well Duh!" stuff you should learn in kindergarten. This book is a total waste of money and somewhat dangerous.

Your one-stop-shop for unparralled coverage of payroll control systems, best practices, measurements and reports, cost account, and outsourcing.
