**Heinz Schuler : Ethical Problems in Psychological Research** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Ethical Problems in Psychological Research:

Ethical Problems in Psychological Research focuses on the relationship between experimenter and subject within investigations in the biomedical and social sciences. The book discusses on the potential conflict between methodological and ethical norms; ethical problems of psychological experiments; and the ethical and methodological

problems of alternatives to laboratory experiments. The text also describes the codification of ethical principles for psychological research.
