Financial statements come to life with Comiskey and Mulford!By A CustomerHave you ever wondered why the accountants' eyes glow when they see a financial statement? They're not wierd (after all), they're just wired differently. This book will change the way you feel about financial statements. I no longer am scared of deferred income taxes, LIFO reserves, restructuring charges, footnotes, and all those irritating financial details which I routinely ignored and hoped did not matter. I'm re-wired for my own good.0 of 0 people found the following review helpful. Three StarsBy CGivengift
