John Davis, Charles Durham : Partnering for Success: Steps to Starting Developing and Maintaining a Healthy Business before purchasing it in order to gauge whether or not it would be worth my time, and all praised Partnering for Success: Steps to Starting Developing and Maintaining a Healthy Business:

0 of 0 people found the following review helpful. Great Business Start-Up BookBy Mickey ProJohn Davis, author of the book "Partnering for Success," highlights the best-case scenario for starting, maintaining, and sustaining a small business. He points out the best and fastest way to start a business and then helps business owners grow their business. He provides a model of success that is easy and straight forward to follow. His positive persona emulates through each page while he explains the "s" and "ts," how to build a business model and strategically managing the business. I strongly recommend this book to people venturing into their own business as well as those that already jumped in.0 of 0 people found the following review helpful. I'm so inspired! I've been wanting to develop my ...By CustomerI'm so inspired! I've been wanting to develop my own business for a long time now and this book

gives me the push to work harder towards that goal. Well done!

The biggest question I hear from young entrepreneurs, small business owners, and sometimes seasoned business owners of large companies is usually: "How can I start, maintain or grow a business?" Unfortunately thousands of business owners or potential business owners struggle with that same question. Therefore we decided to share our model for success. This book will help you start, develop and maintain a healthy business. We decided to keep it simple and concise in order to jump start your efforts. Good luck, see you at the top.
