Begin by Transforming Yourself By Tom Tuttle Reading this exciting new work is a bit like putting your brain into a Vitamix along with a healthy selection of books and articles by leading Futurists. You are guaranteed to come out of this experience with a new blend of concepts, tools, vocabulary and a new synthesis of these ideas that will help you make sense of the current and emerging world. Readers who are searching for a recipe book for dealing with the world that does not "yet" exist will be disappointed. On the other hand, readers who are interested in building their own mosaic of skills and competencies required to navigate on parallel paths through this emerging future reality will find ample resources to enable and facilitate this transformative journey. Perhaps the fundamental truth emerging from this book is that before you set out to transform the world, begin by transforming yourself. Smyre and Richardson deliver this valuable message extremely well. 1 of 1 people found the following review helpful. Value Add / MUST READ By Frank W. Maletz The FUTURE s (in all domains) are emergent Phenomena , therefore , cannot be predicted with certainty . The Singularity movement suggests that we can excommunicate humans in many arenas because of exponential growth of our computing / digitized tools based on Moore 's law . Futurists and humanists Smyre and Richardson along with an eclectic team have taken a totally and totipotent novel approach - futures can be prepared for , change and complexity , as expected and natural , can be abided with tools AND human BEST s , and seamless transformations AND transitions can be better aligned , utilizing their mentoring . As has been stated by Zalman , while not an easy read, it is worth the effort to delve into its richness as it is based on 25 years of existential and experiential practice and exudes wisdom ! This is without question a tome which may launch a meta formative platform which actualizes AND realizes NEXT s - principles for others to take to humanity's co creations and co designs to scale and globally ! MUST READ Dr M[...] - website of THE HEALTHSPITAL FOUNDATION 6.0+2 of 2 people found the following review helpful. I especially like their thoughts about the need for mobile governance - ... By Chevon T. Baccus, APR Rick Smyre has been doing cutting-edge futurist work for many years. He and Neil Richardson have produced a thought provoking book that should be the guideline for total community transformation to prepare for a fast-changing future. I especially like their thoughts about the need for mobile governance - TRUE involvement of citizens in local government planning and problem solving. If you recognize the need for change, READ this book.

Are you really ready for change? Are you prepared for a world changing as fast as you can read this sentence? Most leaders say they are prepared for the future, yet many organizations and communities are doing things in the same old way they've been working for decades. We're living on the precipice of a new era in human history. Preparing For A World That Doesn't Exist - Yet offers an approach to getting ready for an emerging society that will be increasingly fast paced, interconnected, interdependent, and complex. In Preparing For A World That Doesn't Exist - Yet, you will learn about an emerging Second Enlightenment and the capacities you'll need to achieve success in this new, fast-evolving world. Higher education, health and wellness, governance and the economy are transforming in ways few of us could have imagined ten or even five years ago. In this book, you'll get the skills you need to ride the wave of the future and the perspective you'll need to be ready to catch the next wave, too. Planners, physicians, government and higher-education leaders are using the principles and capacities described in this book to create better organizations, and best of all communities of the future that will lead to a planet that can thrive. Join them in looking at the future with excitement and anticipation.

About the Author Rick Smyre is an internationally recognized futurist specializing in the area he helped originate called "community transformation." Neil Richardson is a strategist and a public servant who specializes in smart government advocacy and integral thinking.
